Virtual evolution

QR CODE TEST EVENT

As we begin a new year, the events landscape is a dramatically different place compared to twelve months ago. While there is hope for the longer term with the start of a vaccination campaign it is clear that 'business as usual' won't be happening for a while yet. While some actual events will manage to take place, the virtual world is here to stay. But even that has changed dramatically in recent months.

Step 2 - Select the 'Tickets' option from the grey menu at the top.
